RE: **Response to Pre-Council Meeting Questions**

Response is provided to two questions listed below posed at the Pre-Council Meeting on February 3, 2004.

Question Proof that there were no bids for the property at the higher cost of $13,000.

Answer The bid opening was scheduled for 10:00 a.m. on October 6, 2003 of which no bids were received. However, the Division of Property Management received a bid from Raymond Chalme', President of NJ Telecom Exchange, for 1158-1160 Broad Street, via Priority Mail, at 2:33 p.m. The bid was for $500 per month, which was less than that, specified as the minimum bid offered at $13, 573.00

Therefore, the bid received was not in accordance with the terms and conditions stipulated in Resolution #7RU (as amended), adopted September 17, 2003, which in and of itself would be rejected.

Question Methods that were to calculate the costs at the lower rate and the higher rates.

Answer As a policy, the Division of Property Management uses the amount of $.50 to $2 as a figure for the lease of city owned property. However, in all cases, no lease amount is recommended less than the Municipal Taxes on the property.

Specifically, the subject property is being requested to be leased by the adjacent property owner, to provide parking for employees at the Krementz Building, which currently houses 400 employees and pays an excess of $300, 000 in taxes a year.

The Deputy City Clerk: The following ordinance was adopted on first reading, advertised in accordance with law and a hearing date set. It is now before you for public hearing, second reading and final passage:

Ordinance to amend Sheet 20 of the Zoning District Map of Title 40, Zoning, of the Revised Ordinances of the City of Newark, New Jersey, 2000, as amended and supplemented to rezone various blocks in the South Ward.

WHEREAS: The area between Elizabeth and Sherman Avenues and East Bigelow and East Runyon Streets is in transition from an industrial area to a predominantly residential area; and

WHEREAS: Vacant lots exist within this area that should be developed in compatibility with the new residential development activity that has occurred; and

WHEREAS: The current zoning classification of Second Industrial for this area needs to be amended to ensure that compatible development occurs.

NOW, THEREFORE, BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY, THAT:

SECTION 1: Sheet 20 of the Zoning District Map, City of Newark, of Title 40 be amended so that the following Block(s) & Lot(s):

- Block 2760, Lots 5.02-5.08 and 32.01-32.03
- Block 2761, Lots 12, 28 – 37, 45, and 47
- Block 2768, Lots 9.01-9.18

be changed from a Second Industrial Zone to a Third Residential Zone.

SECTION 2: This **Amendment** is to take effect upon final passage and publication according to law.

STATEMENT

This **Amendment** modifies the existing Zoning Ordinance by requiring this site to be **rezoned** from 2nd Industrial Zone to a Third Residential Zone. The benefit derived if this is implemented is the response to the trend in the area to look forward to additional residential development and the need to protect the new residents from incompatible nuisances that could occur under the current zoning.

Re: Ordinances 6PHS&FF-2 and 6PHS&FF-3

Dear Council President Bradley:

This correspondence is in direct response to the City Council's approval of the above captioned salary ordinances at its meeting December 17, 2003.

Let the record show that I am vetoing the action taken by the Newark Municipal Council arbitrarily granting 3.1 percent pay raises to its own staff over a five year period (2002-2006), while denying wage increases to mayoral aides and others. Cost of living increments should be given to all employees, if given at all.

The approval of salary ordinances 6PHS&FF-2 and 6PHS&FF-3 by the Council is highly discriminatory and divorced of objectivity and fairness. Cost of living raises should not be selfishly administered or awarded based on personal likes or dislikes.

Therefore, as per indicated on the attached ordinances (6PHS&FF-2 and 6PHS&FF-3), I am rejecting the Council's action and urge your objective consideration of the cost of living increments presented by the Administration.

Sincerely,

Sharpe James
Mayor

MEMORANDUM

TO: Municipal Council

FROM: Alvin L. Zach, P.E., L.S.
Department of Water and Sewer Utilities

DATE: February 27, 2004

RE: Water and Sewer Utility Rate Increase Ordinances

In Mayor Sharpe James 2004 Budget message and the 2004 Budget submitted to the Municipal Council, there is a proposed utility rate increase of 19% for sewer and 14% for water. This was implemented to balance the budget and maintain self-liquidity status for the Utility. The proposed rate increase, which is effective March 1, 2004, along with an expected seven million dollar Conservation Easement sale to the State of New Jersey, an increase in the collection percentage and an aggressive shut-off, collection program are all part of the submitted budget. Additionally, over the last two years there has been a substantial reduction in work force in an effort to balance the budget.

In 2003, there was a short fall of revenue on the sewer side of $3,391,534.65 and a slight balance on Water of $571,013.91. This shortage of revenue will be balanced against the City operating budget by deferring payment to the City from the Utility in order to maintain self-liquidity status for the Utility.

Needless to say, the Utility cannot continue to run deficits since this directly affects the City's operating budget, which must cover the revenue short fall. It is imperative the Municipal Council move forward with this rate increase as expeditiously as possible since any delay will exacerbate the deficit. Not having rate increases in over 10 years has greatly reduced the ability of the Water Sewer Utility to move forward with Capital Projects or to accomplish system improvements, which are vital to the Utility.

Additionally, as we go forward, it will be necessary to expend significant funds to upgrade the Water Treatment Plant to meet the changes in drinking water standards. As you are aware, we did not meet the haloacetic acid maximum contaminant level in 2003 and with the regulations getting even more stringent, we probably will not meet regulations in 2004 even with some treatment changes we will implement.

Even with good management and "doing more with less" in the Utility there are many costs we have no control over: i.e., Passaic Valley Sewage Commission, Joint Meeting, North Jersey District Water Supply Commission, electric rates from Public Service and Jersey Central, health care costs and negotiated contracts. We cannot continue to run the Utility in a deficit fashion and hence this proposed rate increase coupled with our other efforts, is absolutely a must and cannot be further delayed.

I am enclosing a package of charts showing the impact of the rate increases in water and sewer and stand ready to discuss this proposal with you at your earliest convenience. I could also refer you to the transmittal of September 24, 2003 from Richard Monteilh, Business Administrator, sent with the last rate increase, which was tabled by the Municipal Council.

Dear Mr. Marasco:

This letter is in response to your February 25, 2004 letter wherein you enclosed a copy of the letter from Samuel Klein and Company outlining the information it seeks (Doc 021804).

In an attempt to be expeditious to the request I authorized our auditor, Mr. Lawrence Belcher, to contact Mr. Faccone. It is my understanding that the two have talked and decided the most expeditious manner to resolve the concerns. I am, therefore, requesting that you confirm same with Mr. Faccone and authorize him to begin scheduling work sessions.
